Bow Island

The Thanksgiving Supper and Bazaar held by the United Ladies Aid last Thursday was a decided success. At three o'clock the tazzar opened which attracted many Xmas buyers, the fish pond also proved very successful. An excellent supper was served at 8 p.m. followed by a program, the ladies netted over \$150.

The following people contributed largely to the success of the evening

1. Piano solo—Miss Nadie James
2. Thanksgiving chorus—Choir
3. Instrumental duet—Misses Hall and Ross
4. Vocal trio—Messrs. Bell, Still and Setters
5. Song—Miss Greta Ostum
6. Address—Rev. Theo. Danielson—Matt. XVI: 26
7. Song—Mr. John Pollitt
8. Violin selection—Mr. Bertie Bateman
9. Short Address—Rev. A. Harkin
10. Vocal trio
11. Chorus—Choir
12. God Save the King

Ray Nevers left last week for Kitchener B.C. to look for work.

Mrs. Harriot left last Monday for Rockyford, to visit her daughter Mrs. Stone

Mr. and Mrs. W.A. Dewey and Ella left for Seattle last Sunday night

Rev. Mr. and Mrs. A. Harkin are leaving for Vancouver Dec. 5th.

Mr. and Mrs. W.A. Bateman left for a visit to Edmonton on November 20th.

Wisdom of Limiting Land Armament Is Considered Doubtful

Washington.—When the arms delegates quit work for the Washington Day recess the following three considerations embraced the central points of interest in their discussion:

Whether the chief to apply general accepted principles to specific cases in the Par East would have definite accomplishments, or only lead to futile debate.

Whether, in view of the position of France and the general situation of Europe, any serious attempt should be made to agree on a limitation of land armament.

Whether a way can be found to hasten consideration of details on the naval limitation plan, which is proceeding smoothly but for slow progress to satisfy some of the delegates.

Of these questions the first was brought sharply to the fore by several direct clashes of opinion regarding elements of the Par Eastern negotiations. At the executive session of

the nine delegations, the right of the Chinese delegates to speak for the Chinese delegation was reported to have been questioned by France, and later a British interpretation of the general principle already adopted was challenged by some of the Chinese.

Earlier in the day the land armament problem had been debated behind closed doors by the delegates of the big five powers, without further result than the appointment of a subcommittee to consider collateral subjects like use of airplanes and poison gases.

Premier Bland, of France, making his farewell speech to the conference, pressed his argument that his country dared not disarm unless the other powers, and although the general discussion drew renewed expressions of sympathy from every other national group, no one proposed any formal joint declaration of policy.

FORTY MILLION BRITISH CONSUMERS DETERMINED EMBARGO MUST GO

Toronto.—Hon. Manning Donnelly, Minister of Agriculture for Ontario, declared that neither the English council of agriculture nor Sir Arthur Bowdoin, British minister of agriculture, nor any ministers in England can prevent the lifting of the Canadian cattle embargo.

"Nothing can stop the demand of the forty million consumers of the

British Isles who are determined that the embargo must go," Mr. Donnelly added.

The Ontario minister of agriculture's remarks were based upon a report that the council of agriculture in England, on November 17, it is adopted a resolution pressing the British Government to maintain the regulations providing for slaughter of cattle at the port of entry.

Winnipeg Store Robbed

Young Bandit Held Up Employees and Cleared Out Till

Winnipeg.—A youthful bandit, about 22 years of age, entered a drug store at the corner of Tenth and Notre Dame avenues, took the manager and his assistant, cleaned out the till and escaped.

J. Wilder, the manager, was shot in the arm and hip, and J. Davis, the assistant, was shot in the abdomen and is seriously wounded. Both are in hospital.

No "hands up" command was given by the assailant, who simply entered the store and started firing at the two victims. The amount of money stolen is not yet known.

Steamer Crew Mutiny

Men Tried to Sack Vessel After Being Discharged

Rome.—A dispatch to the Times of Naples reports that a mutiny occurred among the crew of the steamer Montreuil (from Montreal), Nov. 4, bound for Naples and Genoa which recently arrived at Naples.

The dispatch, was discharged upon reaching port and some of the sailors after disembarking and taking the vessel, but were dispersed by the police.

Ready for Reconciliation With Italy

London.—A Central News dispatch from Rome says the Times publishes an interview with Cardinal Gaspari, the Papal secretary, who is quoted as having asserted that Pope Benedict is ready for a reconciliation with Italy.

Relations between Italy and the Italian Government ceased in 1870, when Rome was incorporated by Papal decree with Italy and made the capital of the kingdom.

Object to Tariff Proposals

London.—Reuter's correspondent at Wellington reports that since the new tariff proposals were introduced in the New Zealand Parliament there has been an outcry from the manufacturers of New Zealand against the proposal to place Australia on a preferential basis with the rest of the Empire, although the Commonwealth Government has given no such privilege to New Zealand.

Student Campaign Fails

Toronto.—The campaign among various students under the auspices of the students' confederation to raise money for needy European students has practically collapsed. Very little interest is being taken because of the fact that a portion of the proceeds were designated for German students.

Canada Receives Oranges From Japan

Vancouver, B.C.—Of sixty-one carloads of Japanese miniature oranges, which arrived on the Montague from Japan, about 50 cars are destined to Alberta, Saskatchewan and Manitoba. These have gone east.

W. N. U. 12396

Club Thrown At Prince In Bombay

Vancouver.—A special cable to the Vancouver World says that while the Prince of Wales was entering a building in Bombay a club was thrown at his head some one in the crowd of spectators. The missile missed its mark and the Prince continued his building. The unarmed, A great crowd had assembled to witness the visit of the prince to the head of the building was being given. In connection with the Prince's visit to Bombay, The assailant escaped, so far as cables indicate, in the confusion which followed the attack.

Teachers Demand

Wage Increase

Immediate Action Must Be Taken in New Westminster

New Westminster, B.C.—Seventy-four teachers in the high and public schools here have their resignations ready to present to the board of trustees unless that body puts into effect the award of the board of arbitration of last May approving the scale of wages sanctioned by the Teachers' Federation. The award means an increase in salaries for the teachers, but the board has refused to comply. The resignations will take effect the first of the year. The teachers held a meeting recently at which this line of action was approved.

Lloyd George Sends Regrets

Sorry He Cannot Attend Annual Dinner of Canadian Club

New York.—A letter received by President Albert Elmer of the Canadian Club of New York from Mr. Lloyd George, secretary to Mr. Lloyd George, expresses the regret of the British Prime Minister that he will be unable to attend the club at its annual dinner.

In the event of his being able to come to the United States, the Prime Minister's message, stating that the time at his disposal will be very short and will have to be devoted entirely to the work of the Conference on Limitation of Armaments.

Words Not Enough

Says Kipling

Action Must Be Taken Against German Dangler

Paris.—In regard to Kipling, when asked by the Editor for his opinion of the Washington Conference, replied that the speeches were of no avail. There must be acts guaranteeing security against the German danger.

Kipling declared it was to the interest of Great Britain and France to remain closely united to face Germany, the common enemy.

Shipyard Workers Killed

Victims of Bomb Explosion in Belfast Disorders

Belfast.—Two persons were killed outright and eight were wounded when a bomb exploded in a tramcar carrying a load of shipyard workers. The city, which has been the scene of several outbreaks of shooting recently, had been comparatively quiet. This new explosion, however, brings the total number of deaths since the disorders began to 22.

Appeal Dismissed

Toronto.—Justice Mowat has dismissed an appeal without costs brought by Lest-Col. Lorne Minto to continue an injunction restraining the town of Ingersoll Falls from levying taxes on the basis of an assessment roll which doubled the assessments made by a former assessor.

Approves Two-Year Enlistments

Paris.—President Millerand approved for submission to parliament a military recruiting bill authorizing two-year enlistments and lightening present restrictions.

Five Live On \$5 a Week

Brighton, Eng.—The arrest of Thomas Scruce, a war veteran, on the charge of stealing three pairs of shoes, revealed the fact that he had to support a family of six on earnings of \$5 a week. Scruce was held for investigation.

Afghan Independence

London.—Great Britain and Afghanistan have signed a treaty of friendship recognizing the complete independence of Afghanistan. There was great ceremony at the signature which took place in Kabul, the Afghan capital.

Search For Missing Man

Toronto.—A search is being made throughout Canada for Benjamin Kaplan, a wealthy clothing manufacturer of Brooklyn, New York, who mysteriously disappeared on October 29, while carrying \$15,000 in cash.

Big B.C. Fish Catch

Prince Rupert, B.C.—More than two million pounds of deep sea fish have been caught in these waters since November 1, promising one of the best months in many years. Catches of black cod have been unusually heavy.

Give your local merchants a chance. Buy at home.

HERE'S A LOT OF THIS SORT OF REASONING GOING ON JUST NOW.

Winter Work Will

Avoid Delay

Year Would Be Saved On Big Irrigation Project

Calgary.—Representations will be made immediately to the department of the interior, Ottawa, by the Calgary Board of Trade in support of a resolution presented by the Hanna Board of Trade, urging that survey parties be continued through the winter months in the North Saskatchewan irrigation area, now known as the William Pearce irrigation scheme.

This action was decided upon by the council of the local Board of Trade after having the project outlined to them by William Pearce.

It was represented that should the survey parties continue working throughout the winter months, the necessary data required to estimate the approximate cost of the scheme would be available next spring, which would avoid a possible delay in operations of perhaps a year.

From investigations already made, it would appear to be practically certain that Sullivan Lake can be made an immense reservoir, requiring considerable diking on the east side to render it so.

Choose Lorde For

Himalaya Expedition

Brig-General Bruce Will Head Mt. Everest Expedition

London.—Colonel Sir Francis E. Younghusband, president of the Royal Geographical Society, announced that Brig-General Charles Bruce, who is well acquainted with the region, has accepted the leadership for next year of the expedition which will attempt to reach the summit of Mount Everest, in the Himalayas, the highest peak in the world.

Appeal Dismissed

Toronto.—Justice Mowat has dismissed an appeal without costs brought by Lest-Col. Lorne Minto to continue an injunction restraining the town of Ingersoll Falls from levying taxes on the basis of an assessment roll which doubled the assessments made by a former assessor.

Approves Two-Year Enlistments

Paris.—President Millerand approved for submission to parliament a military recruiting bill authorizing two-year enlistments and lightening present restrictions.

Five Live On \$5 a Week

Brighton, Eng.—The arrest of Thomas Scruce, a war veteran, on the charge of stealing three pairs of shoes, revealed the fact that he had to support a family of six on earnings of \$5 a week. Scruce was held for investigation.

Afghan Independence

London.—Great Britain and Afghanistan have signed a treaty of friendship recognizing the complete independence of Afghanistan. There was great ceremony at the signature which took place in Kabul, the Afghan capital.

Search For Missing Man

Toronto.—A search is being made throughout Canada for Benjamin Kaplan, a wealthy clothing manufacturer of Brooklyn, New York, who mysteriously disappeared on October 29, while carrying \$15,000 in cash.

Big B.C. Fish Catch

Prince Rupert, B.C.—More than two million pounds of deep sea fish have been caught in these waters since November 1, promising one of the best months in many years. Catches of black cod have been unusually heavy.

Give your local merchants a chance. Buy at home.

HERE'S A LOT OF THIS SORT OF REASONING GOING ON JUST NOW.

Premier Hughes Anxious To Experiment With Empire Air Service

Government Ships

Will Move Grain

Toronto.—Several ships of the Government Merchant Marine Limited are racing to head of the lakes from the seaboard to help in a great movement of grain. The grain will be rushed to Georgian Bay points, and from there by rail to the seaboard.

Munday, Dec. 12, is the last day upon which insurance will be available on the Great Lakes. Nov. 30 is the final date for the ordinary business, but there is a post-season arrangement which covers vessels and cargoes until Dec. 12, but no longer.

Moplahs Killed In

Recent Fighting

Much to Be Done Before Rebellion Is Quelled

London.—Although the official report of the operations against the Moplahs in Southern India declares that considerable progress is being made in dealing with the rebellion, it is evident that the process of clearing up still involves severe fighting from the announcement that 223 Moplahs were killed and 15 captured, and their British side one Gurkha officer and one British officer were killed in the drive north of the Mysore River.

A large concentration of Moplahs under all the best known leaders, is reported as taking place at Bear Head, near the British side, and the British troops think it would probably be most satisfactory, from a military viewpoint, if this force could be induced to give battle.

China's Financial

Crisis Averted

Three Months' Pay Received For Police and Soldiers

Peking.—The financial crisis which threatened the stability of the government has been averted temporarily through remittances from the provincial military governments, totalling 7,000,000 taels. Such heavy remittances from the provinces are unprecedented, and threatened loss of the capital, but will not provide for the civil administration. High civil officials are supporting the government banks by transferring their personal funds to Peking, and as a result notes are again negotiable.

Puts Responsibility

On Alberta Doctors

Have Been Given Choice Regarding Liquor Prescriptions

Calgary.—Physicians and surgeons of Alberta have had put squarely upon them by J. D. Brownlee, attorney-general, as to just how many liquor prescriptions each shall write during a month. By giving the doctors the choice of writing anywhere from a minimum of 25 to a maximum of 100 prescriptions a month, the responsibility for prescribing liquor other than for medicinal uses is put squarely on the shoulders of the individual doctor.

There was some talk that the attorney-general's department was desirous to cut down the number of liquor prescriptions to 25 a month. Instead, the department chose the course of leaving it to the doctors themselves.

Big Profit On Liquor Sales

B.C. Government Nets \$541,606 In Three and Half Months

Victoria, B.C.—The British Columbia Government made a net profit of \$541,606 on the liquor sales for the first three and one-half months of operation under the Liquor Sales Board from June 15 to September 30, according to a balance sheet filed in the Legislature.

There was some talk that the attorney-general's department was desirous to cut down the number of liquor prescriptions to 25 a month. Instead, the department chose the course of leaving it to the doctors themselves.

Five Live On \$5 a Week

Brighton, Eng.—The arrest of Thomas Scruce, a war veteran, on the charge of stealing three pairs of shoes, revealed the fact that he had to support a family of six on earnings of \$5 a week. Scruce was held for investigation.

Afghan Independence

London.—Great Britain and Afghanistan have signed a treaty of friendship recognizing the complete independence of Afghanistan. There was great ceremony at the signature which took place in Kabul, the Afghan capital.

Search For Missing Man

Toronto.—A search is being made throughout Canada for Benjamin Kaplan, a wealthy clothing manufacturer of Brooklyn, New York, who mysteriously disappeared on October 29, while carrying \$15,000 in cash.

Big B.C. Fish Catch

Prince Rupert, B.C.—More than two million pounds of deep sea fish have been caught in these waters since November 1, promising one of the best months in many years. Catches of black cod have been unusually heavy.

Give your local merchants a chance. Buy at home.

HERE'S A LOT OF THIS SORT OF REASONING GOING ON JUST NOW.

London.—A cable from Reuter's

Melbourne correspondent states that Premier Hughes has invited the House of Representatives to consider a proposal for an experimental air service between Australia and Europe, with the airships as a free gift from the British Government.

It is estimated that the total cost for two years' service would be \$1,600,000, of which Great Britain would contribute half and the Dominion half. The British Dominion contribution on a per capita basis would cost about \$2,500,000 for the experiment. Assuming that the Dominion's share was one-half, Australia's proportion would be \$2,500,000.

Premier Hughes stated in the House of Representatives that he would have a statement compiled showing what the liability would be and whether the experiment would be worth the money, if only as an advertisement.

Embarrassed By

People's Greeting

Princess Mary and Lord Lascelles

Cheered By Crowd

London.—Princess Mary made her first public appearance with Lord Lascelles, her father, since their betrothal, when the two left Buckingham Palace in an open carriage with Queen Mary for a drive through Hyde Park. Although the news that they were to drive out became known only shortly before their departure, quite a large crowd assembled in the vicinity of Buckingham Palace and cheered the Royal party heartily as the carriage drove away.

Crowds quickly gathered along the route and made the drive partake of the nature of a triumph. Much to the perceptible embarrassment of Princess Mary and the apparent embarrassment of the Queen and Lord Lascelles.

The Queen and the Princess lunch with Lord Lascelles at his home, Grosvenor House, which will eventually be the home of Princess Mary.

Wants to Restrict

State Parliament

Australian Premier Introduces Bill to Extend Federal Power

London.—A House member from Melbourne says that Premier Hughes introduced in the House of Lords a federal convention bill designed to amend the constitution of the commonwealth for the election of 111 members, comprising 18 elected by the Federal Parliament and 93 by the state legislatures and 75 by the adult franchise of the commonwealth. Within a month the first meeting, the convention must report on constitutional amendments desirable and within 15 days the necessary legislation will be introduced.

Five Live On \$5 a Week

Brighton, Eng.—The arrest of Thomas Scruce, a war veteran, on the charge of stealing three pairs of shoes, revealed the fact that he had to support a family of six on earnings of \$5 a week. Scruce was held for investigation.

The following is being published at the request of the local postmaster Mr. Geo. Cahler

Experimental Aerial Service from Halifax to Newfoundland about Dec. 10, a Trip by Aeroplane from Halifax, to Newfoundland is being arranged for about the middle of December, and the Department has been asked to encourage the venture by despatching a letter mail from Halifax on the flight in question. It has agreed to co-operate in this way provided those sending the mail matter assume the risk

The requirements for this mail are: 1 "By Aerial Mail" to be prominently written on the address side of the envelope.
2 The usual four cent postage for a one ounce letter to be affixed on the address side of the envelope.
3 Additional Postage Stamps to the value of thirty cents to be placed on the address side of the envelope in payment of the special charge for transmission by the Aerial Service which has been fixed by those making the flight.
4 Public largely to blame for delay or non-delivery of mail

Wherever delay to, or non-delivery of letter occurs, the sender or the addressee is prone to adversely criticize the Post Office. Frequently, however, the delay or non-delivery is due to the carelessness of the public, in failing to properly address the mail matter in question.

During these days this month, 128,290 pieces of locally city and insufficiently addressed mail matter were handled at 25 of the larger Post Offices. This is a daily average of \$200 for the 55 Offices, or at the rate of \$100,000 for a year, of 365 days. Think of the number of postal clerks engaged in handling this misdirected mail, who could, if the general public were more careful, be used to give better service in other ways. Much trouble is due to careless writing, to the use of a pencil in writing the address, and to failure to give the proper street address or to keep mailing lists up to date.

With the Christmas season at hand, bringing immense quantities of mail to be dealt with, it will be necessary that the public adopt more careful methods in the preparation of its mail matter, if the daily average of misdirected mail is not to amount to an overwhelming figure.

In this connection the following points to be observed are pointed out: Prepay postage fully; Address plainly and fully; place name and address of sender on all mail matter; carefully pack and wrap all articles sent by parcel post, but do not seal the parcels as sealed parcels are subject to letter rate of postage.

Mail Christmas parcels early: Secure valuable parcels.

LONDON—Baba Abbas leader of the Bala Movement died at Baffra Persia movement had the world religious unity.

VICTORIA—Opposition motion calling for by-elections to fill 20 vacant seats in B.C. legislature defeated 23 to 17, a lengthy discussion on unemployment was held at the afternoon session.

CALGARY—A. L. Smith Conservative Candidate for Calgary issued complaint charging Editor of Alberta with Defamation Title, Alberta had published a story saying police had raided Smith's committee rooms and seized six barrels of tool beer.

LA SALLE, Ill.—"Where's the evidence?" demanded Judge Jacobs in the Desplains Street court today, when John Beatty was arraigned for petty larceny.

"Here it is," responded two policemen, as they came in, holding a weighty package between them with one hand and holding their noses with the other.

"Take it away," shouted the judge, "Baillif, open all the doors and windows."

"I was just walking along, Your Honor, when I saw this cheese," began Beatty.

"Seven mild any explanations, Take it and get out."

"Well, I was just walking along—" "Hurry; get out of here," warned the judge.

Beatty dragged the overpowering cheese outside and came to the door, "I was just walking along and found it under a railway bridge," he said.

"All right, all right, go back and see," said the judge, who retired to his chambers until the room had been thoroughly aired.

Canada Farmers And New U.S. Tariff

GAANAGUET, Ont. Nov. 12.—At a meeting last Saturday of electors of this county and held in the hall of the parliament for seven years, Mr. Thomas White, former Minister of Finance for Canada, asked the question of the Ontario Farmers' relief today with the Fordney tariff if offered they would be better off with existing conditions, more money, Toronto, Hamilton, and other cities and towns with diminished population, existing industries crippled or wiped out.

"It is of the greatest advantage to the farmer to have a home market of his own," said the speaker, "The market of the United States always will be uncertain because there will be continuous change of political parties."

Mr. Thomas said he wished to make it clear that "I am not desirous that the Canadian farmer, the United States Canada's trade with the United States should be promoted and increased, but I want that trade to be fair trade."

Dangerous Symptoms

A contemporary gives the following advice to its delinquent Subscribers: "If you have frequent fainting spells, accompanied by chills, cramps, corns, bunions, chilblains, epilepsy, and jaundice or heart disease, it is a sign that you are not well, and liable to die any minute. Pay Your Subscription in Advance, and thus make your self sold for a good Olditory Notice."

We pass the advice along for any of our Subscribers who may have observed these symptoms, or any them, in themselves.

Western Christian Advocate.

Thief Cornered By Police Dog

MONTREAL—The agency of a Belgian police dog belonging to Joseph Cote, led to the arrest of Arthur LeBlanc who snatched a purse from Mrs. MacFarland at the time she was walking home.

Hearing the woman's cries, Mr. Cote, who was passing in his automobile, accompanied by his dog, sent the animal after the thief, who took refuge behind some bushes. The astute dog snuff out the stolen purse, and dashed back with it to his master.

He then ran back and cornered LeBlanc behind him until the arrival of a police officer.

Arrives at Rio

Rio Janeiro, —Sir Ernest Shackleton with his ship Quest, on an Antarctic expedition, arrived here yesterday. The expedition is expected to remain here about two weeks.

Engine Overturns Kills Thresher

Hockville, Sask., Nov. 22.—Allan Vance, thresherman of Spry Hill, was instantly killed last week when he was driving, overturned, pinning him underneath one of the wheels. Mr. Vance was moving his machine when he was struck by a train, when he was driving, overturned, pinning him underneath one of the wheels. Mr. Vance was moving his machine when he was struck by a train, when he was driving, overturned, pinning him underneath one of the wheels.

Children Die in Flames

Habibug, Nov. 22.—Twelve children lost their lives in a fire which swept through a playhouse. Thirty others were injured.

Cream on top; Liquor beneath

Coutts-Sweet Grass, —Hooligans in the State of Washington have our local whiskey runners cheated off the top of the bottom of a can of condensed milk, which is sold in the bottom of a can of condensed milk, which is sold in the bottom of a can of condensed milk.

Lumber Prices Drop in Ottawa

OTTAWA, Nov. 23.—A drop in prices from two to ten dollars per thousand has taken place in the Ottawa lumber market and principally affects manufacturers' quotations to wholesalers. The decrease, while not general in all grades of wood, applies particularly all grades of pine. Good pine siding, shorts and good pine dressing stock are grades to show the greatest reduction and have come down ten dollars per thousand feet in price.

TOKYO—Crown Prince Hirohito has been designated regent of Japan following reports which have been in circulation for about a year that Emperor Yoshihito was in bad physical condition. A dispatch to a Honolulu newspaper in May of last year reported that he had suffered a mental and physical breakdown.

Early last month a rumor that he was dead was circulated in Tokyo and the household in denying it at that time stated that he was so ill it was feared that he could not recover.

DATES for AUCTION SALES

If you intend to have a Sale, be sure you leave the date at the Bow Island Review for D. M. Garrison - Auctioneer

Great Interest Taken In Developing Clubs For Boys And Girls

In only a few years since boys and girls of rural Canada have been the first clubs devoted to poultry, cat and canning projects. These clubs are now numbered by the hundred and the membership by the thousands. It is not so generally known, however, that much of this work was made possible by an act passed by the Dominion Parliament in 1913, which provided ten million dollars for distribution among the provinces to finance instructional work for the benefit of the agricultural community. From that time the development and spread of such clubs was very marked, and they continue to increase in number and range of activities year by year. While developed under governmental auspices, rural communities entered into the spirit of the thing, subscribing money for prizes, showing their approval by attending the annual fairs (also of comparatively recent origin) at which the livestock and other products were exhibited. Young men and women took part; bankers agreed to advance to the boys themselves money to pay for the purchase of stock purchased; livestock yards, meat packing concerns and leading exhibitors took the matter up and offered inducements to the boys. From the local school fair the exhibits and competitions extended to the county exhibitions, and then to the provincial and national ones. In the prize lists for exhibits of pigs, calves and poultry reared by boys named "A great part of the money devoted to the purpose by each of the provinces is forthcoming from the funds derived under the Agricultural Instruction Act and is largely due to the passing of the act referred to that the work has taken such rapid progress. The results go a long way to justify the passage of the measure. In Manitoba this movement has been very successfully assisted, and the name of Saskatchewan and other Western Provinces, where, although the development has not been so rapid, it is as the province first named, it has nevertheless been substantial and is leading to equally good results by means of these practical undertakings boys and girls are being developed to make use of their talents and abilities in a way that will result in success and usefulness not only on the farm but in whatever calling they may eventually undertake.

One On Day Dyke

School Children Thought Fire Drill Instruction Applied to Everything
The principal of a certain school offered himself on the speed with which his pupils went through the drill. When he asked them, "What would you children do if I told you there was a fire in the building?" the answer he had taught them rolled with astonishing glissandos from their tongues.

One day Dr. Henry Van Dyke was to lecture to the pupils. In introducing him the principal asked, "Now children, what would you do if I told you that Dr. Henry Van Dyke was to lecture here today?"

Three hundred voices responded in unison, "We would rise promptly, put away our books and then quietly and without disorder, but as quickly as possible, file out to the street."

Want Auto License Plates Changed

Those Used in Manitoba Are More Easily Remembered
That the Saskatchewan Government's auto license plates might suggest a change for the better, in respect to being more readily readable, and more easily remembered, was suggested made at a meeting of the directors of the Board of Trade held in Regina. It was pointed out that the license plates used in Manitoba were much better in these respects than those in Saskatchewan. The number in that province being hyphenated.

White-Gloved Executioner

In Austria the public executioner wears a pair of new white gloves every time he is called upon to carry out his capital sentence. The Austrian official takes off the gloves directly after the execution has been carried out, and there is often great competition among the curious on-lookers to secure those worn when dispatching noted criminals.

Made Him Nervous

"A very nervous man visited a famous horse specialist for treatment of a nervous ailment. The doctor asked him, 'Do you drink much coffee?' asked the doctor.

"A vast four saucers full," answered the patient.

"Why don't you drink out of a cup?"

"Because when I do the spoon gets in my eye."

W. N. U. 1294

Decrease in Number Of Milk Cows

Feed Shortage In 1920 Forced Farmers to Sacrifice Stock

From the figures compiled by the Statistics Branch of the Department of Agriculture for Saskatchewan, it is shown that the number of milk cows in the province in 1920 was some 20,000 less than in the previous year. This fact does not interest in itself, but lack of interest in dairying but is a direct result of the unfortunate conditions which obtained for stockmen during the year and more particularly during the winter months. Owing to the very serious feed shortage large numbers of both milk cows and heifers which would have been coming into milk had to be sacrificed and the many head were lost through disease resulting chiefly from the run down condition of the animals.

Wild Acres in Saskatchewan

Total Acreage Assessed to April 30, 1920, Was 468,969

According to the report of the Wild Acres Commissioner, published in the annual report of the Department of Municipal Affairs, Saskatchewan, for the year ending April 30, 1921, the total acreage of land assessed under the Wild Acres Act in local improvement districts, was 468,969, with an assessed valuation of \$1,751,129. The valuations for the purpose of this assessment were based upon the reports of the inspectors attached to the branch, an important part of whose work is to make a survey of all the lands in the local-improvement districts ascertaining the area under cultivation and report as to their liability to the wild lands tax.

Report Guns Stolen

By Irish Soldiers

Inquires Suggest That Missing Arms Were Remained Openly
A number of machine guns and rifles have been stolen from the Victoria Barracks, Windsor, where the Irish Guards are quartered, according to the Daily Mail. The newspaper says the robbery was one of the most remarkable ever investigated. It involves the guns and rifles were taken by soldiers of the Irish Guards, who are supposed to have escaped to Ireland.

"Inquires," the newspaper adds, "suggest that the missing arms were removed to Ireland and sent to an unknown destination."

It is not the prize that is the great thing; it is the effort which has deserved the prize—Bishop Welton.

Australia's Empty Places

Great Northern Territories Are Menace to Safety

"Australia is, I think, torn to the core," will not deliver is with nation the basis of all policy, and so long as the British fleet can guard the shores of the great empire northern territories as regions as big as British Germany, France and Austria put together, they have need of us.

Price of Wales at Bombay

Great Enthusiasm Marked Reception and Holiday Was Declared

Reuter's correspondent with the Price of Wales, in a long detailed despatch, describes the reception of the Prince by the populace of Bombay, when he landed, and during the four-mile procession in the native bazaar, where there was tumultuous enthusiasm, unprecedented in the history of Bombay.

The route of the procession was lined with British and Indian troops. A public holiday had been declared, and all the inhabitants of the city, from shops and streets to the streets, were to greet the Prince, whose bearing made a great impression.

Resembles a Springbok

Horns Developed On Nine-Year-Old

Native Name
A native with horns like those of a springbok was brought to Johannesburg from the Rand, South Africa. The horns began to develop when he was nine years of age, and he is now about 25 years old. The horns are in every other respect like a normal.

Every year Sunamra imports hundreds of tons of old newspapers. The squatters run through the island and the papers are used as manure in the fields. The papers are also used as fuel for the tender-roaster and the squatters' roofs.

A Playground in Quebec

PAUGAN FALLS, IN THE GATINEAU DISTRICT

PAUGAN FALLS, IN THE GATINEAU DISTRICT

the need for "national hags" was recognized—lack.

It is beginning to realize that an amazing increase in motor traffic has developed in the province, and that the need for tourist travel, and that the more attractive the objective, the greater the number of tourists. Tourists represent revenue and a very satisfactory type of revenue, for in enjoying and breathing by a solemn in one of our playgrounds, they leave the scenery undiminished in grandeur, and they take away nothing that impoverishes the country. So many are many cities competing for this tourist traffic, that they provide camps for motorists and rely with one another in offering attractions that may induce a motorist, at least, within the municipality.

The Gatineau is like a hen waiting for a golden egg and needing only a little bit of corn in front of her to get the machinery in operation.

The absence of hotels has been for the lovers of the Gatineau one of its principal charms. There has been no danger from travelling hordes capable of desecrating its vast solitudes with jax band and ukelele, and build-

PAUGAN FALLS, IN THE GATINEAU DISTRICT

ing picture houses to what out the glory of the chies, Kingsmere, Farm Point and Blue Sea Lake (where the Duke and Duchess of Devonshire elected to spend their summers), are almost as a closed Paradise to any save those who have not taken. Yet, although all of these places are undeniably beautiful and desirable by reason of their very exclusiveness, they do not comprise even half of the Gatineau.

The vicinity of Paugan Falls can scarcely be equalled as a hotel site. Paugan is an Indian word meaning "play" and is descriptive of the shape of the Falls. While these may not be mentioned in the same breath with Niagara or similar glory, yet they have their own peculiar charm; the approach, the setting, the coloring of the surrounding hills, the indescribable atmosphere of romance that pervades the district. Over the Paugan a rainbow arches many times on sunny days and when clouds threaten Old Sol with death, the principal colors fade away in a shimmering light. Below the Paugan Falls the Gatineau River grows calm and forms not only a safe lake for boating, but a beautiful view of the borders as it is for a half a mile with a stretch of amber sand—M. M.

Nothing To Hinder Prairie Provinces From Producing Good Corn

Urge Bounty On Coyotes

Destruction of Saskatchewan Sheep Makes Some Action Necessary

Replacement of the bounty on coyotes is desired by the Saskatchewan Sheep Breeders' Association. They contend that the destruction of sheep in the province, especially in the area of Swift Current and in the Qu'Appelle Valley, is such that some action by the government is desirable, and they voiced the opinion at their executive meeting in Regina that the restoration of the bounty on coyotes, who are doing the damage, would do much to solve the problem. They will shortly place before the Minister of Agriculture facts collected by them, concerning the number of sheep destroyed by coyotes, coupled with a request that the government take such action as they see fit.

Stone Church Front Moved

Engineering Feat Was Accomplished In Two Days

An unusual engineering feat, described in the Illustrated in Popular Mechanics for December, was accomplished in Buffalo, N.Y., when the entrance to a large stone church, the Central Presbyterian was "lifted" and moved forward 30 ft., to the sidewalk. The front contains the main entrance arch, the cornerstones, and two massive pilasters. The stone was 18 ft. thick by 78 ft. wide, and 6 ft. high, and weighed approximately 1,000 tons. Fifteen jack screws, rated in pump jacks, were used for the moving. At a whistle signal these were simultaneously given one quarter turn by the workmen. One turn moved the stone 16 in., and the distance covered in 24 minutes was about 35 in. The actual moving was completed in two days.

Prospects For Trapping

With the trapping season just opening, prospects for the hunter after fur in Northern Saskatchewan are good, judging from reports received recently by Fred Hrudis, game guardian for the province.

He is always wondering how the good regardless of consequence. He who is always wondering how he will say "never make much progress."

A striking feature of the 1921 harvest in the Canadian western provinces was the quantity of corn to be seen on every acre, and a novel touch to the western landscape of a few years ago. The traveller through the countryside encountered on all sides golden corn, sturdy stands of the growing crop, and later met plots of fields and the tall ripened sheaves ready for the sheaf and the winter's feed bin. The stalwart growth and excellent yields of the corn of the Prairie Provinces have occasioned exclamations of amazement and admiration from visitors across the line who, dwelling in what is known as the "Corn States," are in the best position to appreciate the wonderful production of Western Canadian soil. In the belief that their territory alone on the continent possessed the properties for successful corn production, the government has marvel can be imagined.

It is not so very many years ago since cornfields and wheat could not be seen in the west, and gradually the growth and extension of Western Canadian cultivation has been a long and steady march. In its wake, until now it is generally acknowledged to be well within the Canadian belt, a situation attributed by a decade's unintermitted success in winning international honors for this crop. Indications would now tend to the belief that this territory alone is undergoing something of the same process of shifting, and that, in the near future, the corn belt will be the Canadian West, and the Prairie Provinces will with the corn states across the water in their annual fields. The extent of the corn belt is increasingly large areas devoted to the culture, would demonstrate there is no reason to believe that the corn belt is undergoing something of the same process of shifting, and that, in the near future, the corn belt will be the Canadian West, and the Prairie Provinces will with the corn states across the water in their annual fields. The extent of the corn belt is increasingly large areas devoted to the culture, would demonstrate there is no reason to believe that the corn belt is undergoing something of the same process of shifting, and that, in the near future, the corn belt will be the Canadian West, and the Prairie Provinces will with the corn states across the water in their annual fields.

Mail Fourteen Years Late

Postcards Mailed in 1907 Have Just Reached Destination

Speaking of the rapidity of the mail, a letter writer to The Star knows something about it. It is August, 1907, fourteen years ago, he passed his vacation in Atlantic Canada, Oceans City. And inasmuch as he had left his wife at home he thought it best to send her some cards telling her of his safe arrival and subsequent good behavior. He sent cards from both places. When he returned home his wife wanted to know why he had not written. He assured her that he had, but—well, the matter was forgotten. And now, fourteen years later, where they had been these last fourteen years is a secret which probably will be buried in the mysteries of the U.S. Postal Department.

Cut Trees For Foch

Caught In Jam, Marshall's Car Taken Along Sidewalk

Trees were cut down to permit Marshall Foch to attend the ceremonies of the unknown American soldier at Arlington. Arriving late at the Union station, the Marshall's automobile started for Arlington. Before it had proceeded many blocks, it encountered the jam of motor cars, four abreast, stalled while trying to get to the national cemetery.

The secret service men decided that the automobile was too big to reach the amphitheatre in time via the sidewalks. But when it came to making right angle turns the automobile was too big to turn. The secret service men and the police cut down the trees lining the sidewalk to permit the big machine to turn and reach the cemetery on time.

Saskatchewan Rhodes Scholar
To John A. Weir, lecturer in law at the University of Alberta, has fallen the honor of winning the first Oxford scholarship in open competition. The scholarship is awarded for research work and has been won by a Canadian in the history of the award. It is the highest honor in law that is awarded at this English university. Mr. Weir was a student of law at the University of Saskatchewan.

The Farm Loan Board of Saskatchewan has loaned to the farmers of this province the huge sum of eight and a quarter million dollars, but there are thousands of applications waiting to be filled.

You can always tell a bachelor by the buttons that are not missing from his clothes.

Mrs. Margaret Bond Says Troubles Cost Her A Small Fortune

"During the five years I suffered with stomach trouble and rheumatism I spent a small fortune trying to get well," said Mrs. Margaret Bond, of Riding Mountain, Manitoba, wife of a prosperous farmer well known throughout that section.

"My stomach was in such bad condition," she continued, "that I couldn't eat scarcely anything without suffering afterwards. I often had such painful attacks of rheumatism in my limbs that I couldn't help crying. I was so nervous that if I tried to take a drink of water my hands shook so the water would spill and I was never able to get a good night's sleep. I took all kinds of medicines and treatments, but nothing seemed to help me. "During the five years I was taken down with it. I was in bed five weeks and when I got up I wasn't

able to leave the house for ten weeks and I didn't have any hope of ever getting well again.

"I decided to try Tanlac as a last resort. I have taken eight bottles of this medicine and the results have been just wonderful. My appetite began to improve after the first few doses and I felt hungry all the time. I am now able to eat anything I want and don't suffer in the least with indigestion, am no longer nervous and can sleep all night and when morning comes I am feeling fine and ready for a hearty breakfast. I haven't a rheumatic pain about me. In fact I feel as well as I ever did in my life and my health seems to be perfect in every way. I have gained eleven pounds in weight and am no more stricken than I can do my household work with ease."

Tanalac is sold by leading druggists everywhere.

World Happenings Briefly Told

Marshal Joffe has left France on a trip to the Far East to carry France's greetings to the natives there.

Henry M. Hyndman, most prominent of English Socialists, died recently in London, aged 79.

Twelve children lost their lives in a fire which swept through a playground at Hanburg. Thirty others were injured.

Baron Korekiji Takahashi, Minister of Finance in the Hara Cabinet, has officially assumed the premiership of Japan in succession to Takashi Hara, who was assassinated Nov. 4.

An attempt has been made on the life of M. Chicherine, Russian Soviet Foreign Minister at Moscow. The attempt was unsuccessful. Three thousand arrests have been made.

Pire believed to have been caused by a carelessly dropped cigarette, destroyed the Riverside Roller Skating Rink, Toronto. The damage is estimated at approximately \$50,000.

Prof. E. L. Innes, professor of microbiology at Queen's University, has decided not to accept the title made him by the Manitoba Government, of the commission of Northern Manitoba.

A shipment of 267 Canadian cattle arrived on the steamship Lacombe at Glasgow. The best steers sold at 11 cents per pound and secondary quality at 9 to 10 cents. The general quality was only fair.

It is reported that a number of political prisoners, the majority of whom are supposed to have been transferred from Siskie Island, New York, have escaped from Killeen jail by tunneling. It is said that 47 of the men got away.

Five persons were killed and 17 wounded in a battle between cavalry and a mob of bandits and strikers in the Punta Lara territory of Santa Cruz, according to despatches received by the Minister of the Interior. The troops took 150 prisoners.

What Kind of a Day Do You Wish Yourself?

Suppose you could make a wish at the breakfast table and finally have your wish come true.

Would you say:

"I want this to be a good day," or—"I am willing for this day to drag along?"

If you keep on wishing your wish with the food you eat, finally the wish is likely to come true.

Grape-Nuts helps your wish for a good day. Nothing miraculous; just the natural result from right food with the right taste.

There is a charm of flavor and crispness in Grape-Nuts that is like the smile of a good friend at the breakfast table—

And Grape-Nuts, with cream or milk (fresh or tinned), in fully nourishing—feeding the tissues and glands, the bone and blood with just those elements which Nature requires—building strength without any "heavies."

Grape-Nuts is the perfected goodness of wheat and malted barley, scientifically developed—ready to eat from the package. A Grape-Nuts breakfast or lunch is a practical wish for good luck.

"There's a Reason"

Sold by all grocers

To Get Rid Of Pests

BY LORETTO C. LYNCH
An Acknowledged Expert In All Matters Pertaining to Household Management.

Not only are the insect and animal pests of the household disagreeable, but in many cases they are a decided menace to health. It is, therefore, the duty of every woman who has the care of the family's health at heart to take steps to rid her home of these undesirable visitors.

Ants are attracted to a number of foodstuffs, but especially are they fond of fats and sugars. These foods should be kept in closely covered containers and small amounts spilled on surfaces should be cleaned away at once. The most effective way of ridding the home of ants is to locate their nest and pour gasoline or kerosene or carbon bisulphide upon it. If the nest cannot be found one may be able to find the cracks through which the ants come and stuff them with cotton saturated with the oil.

Kerosene, gasoline and benzene forced into the cracks are effective in controlling bedbugs. It should be applied about every ten days so that the bugs hatched in the intervening period may be destroyed.

Purifying the room with burning sulphur is not to be advised, as sulphur fumes tend to corrode painted walls and other decorations such as fabrics of curtains, pillows and the like.

Carpet beetles, buffalo bugs and bat-moths are difficult to exterminate once they become established. Tackled down carpet should be taken up, thoroughly beaten out of doors, sprayed with gasoline or benzene, sunned and aired. Repeat the process for several days. The floors should be scrubbed with hot soapsuds and all cracks and crevices sprayed with gasoline.

Closets should be scrubbed and treated with gasoline. Hydrocyanic gas and gasolene are also effective in exterminating carpet beetles.

Cockroaches or waterbugs are attracted by dampness, bits of food, trash of all kinds, and generally carcasses of housewifery. Make the place as dry as possible and keep all foods in tin or china or glass containers closely covered. It is a mistake to allow food to remain in the place as it will attract them. Paper bags in which it comes for so short a time as one night.

To rid the home of these pests scrub thoroughly with hot soapsuds and when dry sprinkle the powder—sodium fluoride—into the cracks. It is poisonous so use it with caution.

Flea often get into rugs and drapes. The flea-fighting article should be sprayed in the open and then sprayed with gasoline, benzene and kerosene, sunned and aired. Repeat several times.

The Oil of Power.—It is not claimed for Dr. Thomas' Electric Oil that it will relieve all ailments, but it is so various that it may be looked upon as a kind of a "cure-all." It achieved that greatness for itself and its excellence is known to all who have tested its virtues and learnt by experience.

Saskatchewan Has One Cheese Factory

Conditions Not Favorable for Establishing More in Province

The following are the figures of output with values for the three years for the cheese factory of La Societe Commerciale D'Alberville, the only cheese factory in the province, situated twenty miles northeast of Prince Albert, which has been in operation: 1916-15,274 pounds, value \$2,527.25; 1917-16,250 pounds, value \$1,527.25; and in 1920 the output was 25,267 pounds worth \$7,170.

A number of inquiries have been received at the dairy branch during the year regarding the establishment of cheese factories, but it appears very doubtful whether, under the conditions generally existing in this province, an ordinary cheese factory business can survive against the competition which must be met.

He Old

"De miled" he cried, in a voice surcharged with anguish. "If you refuse me I shall die!"

That was 75 years ago, and the heartiest old refused him. Yesterday he died. Beware!—Pearson's Weekly.

Something to Look Forward To

Amateur Golfers.—The day I get around here I think is less than a hundred I'll give you a shilling.

Caddy.—"Thank you, sir. I'll come in handy in no old age."

Colalt, one of the rarest minerals, is chiefly used in coloring glass and porcelain.

Minard's Liniment for Dietsmeat

SLOAN'S RELIEVES NEURALGIC ACHES

FOR forty years Sloan's Liniment has been the quickest relief for neuralgic aches and rheumatism, tired muscles, lame backs, sprains and strains, cuts and pains.

Keep Sloan's handy and apply freely, moist rubbing, at the first twinge. It cures and helps comfort quickly and readily. You'll find it clean and non-staining.

Sloan's Liniment is pain's enemy. Ask your neighbor.

At all druggists 25c, 70c, \$1.00. Made in Canada.

Sloan's Liniment

Says Canada Is Workers' Paradise

Major Mary Booth Thinks Conditions Are Ideal

Canada was colonized as a worker's paradise by Major Mary Booth, General Brannell Booth's second daughter, who has returned to England from a visit to the Dominion. "Canada is the best place to live in," she said in an interview. "All the houses seem to have telephones and electrical washing machines controlled by pressing a button. Even the mangles are worked by electricity. Everybody seems to have a motor car. One of my big sons in Toronto has a garage for his employees' cars."

A POISON STOREHOUSE IN EVERY HOME

You may not think so, but that's what happens to every one of us when the kidneys are affected. The kidneys are the filters that remove from the blood the waste matter that acts as a poison to the system. Dr. Hamilton's Cream Liniment, of course, you might substitute bands of brown velvet instead of the ribbon, and this would be equally effective.

More Creameries Needed

Despite the high cost of construction the demand for creameries in Saskatchewan is most urgent. While there are, it is estimated, fewer milk farms in the province than last year, the number of creameries register a great increase and represent a total investment worth \$2,175,000.

To have the children sound and healthy is the first care of a mother. Every mother should be kept free from worms. Use Mother Graves' Worm Exterminator.

Paid \$50,000 For Violin

Kubelick, the famous violinist, is credited with having paid \$50,000 in 1910 for the "Haddock Strad," which found its way to England from Brussels in the year of Waterloo, and had only been played in public twice in the intervening 55 years.

Minard's Liniment for Colds, etc.

Home-Visitors' Fares

A Trip Back Home Via the National

At this time of the year, with the Christmas holiday season drawing near, the question of a winter holiday trip back home to see the "old folks" is uppermost in the minds of many Western people.

With this in view, the Canadian National Railways have arranged for considerably reduced fares from stations in Western Canada—Winnipeg West in Manitoba, Saskatchewan and Alberta. The special fares may be taken advantage of any time between December 1st, 1921, and January 15th, 1922, and are good for return during three months from date of issue. Tickets may be purchased to any point in Eastern Canada. See Canadian National Railway Agent for further particulars.

Miller's Worm Powders are a prompt relief from the attacks of worms in children. They are powerful in their action and, while leaving nothing to be desired as a worm expeller, have an invigorating effect upon the youthful system, remedying nervousness, loss of appetite, sleeplessness and other ailments that are the direct result of worms in the stomach and bowels.

Total of 110,000 trees were required to build the Meiji shrine in Japan.

The use of silk ribbons to tie up cigars originated in Cuba.

ECZEMA

You are not alone. There are thousands of people who suffer from eczema. It is a skin disease that causes itching, burning, and pain. It is often caused by a bad diet, or by a bad habit of scratching. It can be cured by using the right medicine. Ask your doctor for the best remedy.

A Pretty Frock for the Small Girl

By Marie Belmont

Voile is an admirable fabric for the small girl's dress, as it is easily laundered and wears very well. A pleasing shade of tan voile is favored for the fashioning of this frock. It is designed with a square cut neck, which is outlined with brown grosgrain satin ribbon. The ribbons are continued down the front and also trim the side seams. They are used to simulate cuffs on the short sleeves, while the skirt shows an interesting ribbon trimming. Of course, you might substitute bands of brown velvet instead of the ribbon, and this would be equally effective.

Eracting New Townsite

Building activity on a large scale is reported in the Crown's West Junction country where a new townsite is being erected by the West Canadian Colonies. Buildings already under construction or contracted for will cost in the neighborhood of \$200,000 and include a forty-room hotel, an apartment block, houses and stores.

Indoor School Play

Winning Children Have Indoor Play Centres for the Winter Months

Now it is indoor play centres for Winnipeg's kiddies, to take the place of the summer supervised playgrounds. The parties board is arranging them, and they will be held in various local schools.

At these indoor play centres there will be physical culture, games and folk dancing for the girls and physical culture, games and boxing for the boys.

Nervous Breakdown COULDN'T SLEEP NIGHTS

To those on the verge of a nervous breakdown the following symptoms present themselves: Nervous headaches, a feeling of depression, flitting, disturbed sleep at night, and general sleep, often troubled with frightful dreams, avoidance of crowded places, dread of being alone, horror of society, etc.

When the nerves become affected in this way the heart generally becomes affected too, and on the first signs of any weakness of the heart or nerves, physical energy or physical breakdown do not wait until your case becomes hopeless, but get a remedy that will at once quieten the nerves, strengthen the heart and build up the entire system.

This you will find in

MILBURN'S HEART AND NERVE PILLS

Mrs. M. Damang, Young's Cove Road, N.B., writes:—"I was bothered very much with my heart and nerves; had nervous headaches and dizziness, couldn't sleep at night, and my appetite was all gone. I was on a nervous breakdown. I had heard of Milburn's Heart and Nerve Pills. This I did, and before I had the second box used I was better and would advise anyone who has nerve trouble to take them at once. Price: See a box at all dealers or direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont."

Rev. Hockin Sr. preached at the United Church last Sunday to a large congregation, the subject of his sermon was "The Divinity of Christ and was handled in such a manner as to hold the attention of the people to the end. It was the kind of sermon that people remember, take home with them and are better for hearing. The male quartette rendered special music

Mrs. F. Hughes of Camendish, Alta. was in town last Tuesday and Wednesday in the interest of the Women's Institute

Mr. F. Bishop has sold his pool room and barber shop to Hop Sing, who is having the interior remodelled. Mr. Bishop has moved his shop into the building belonging to Mr. Sandy opposite the Town Pump

Mr. Floyd Mason is the guest of Mr. and Mrs. W. D. Anderson

Mrs. Powell, who with her two daughters has been visiting her daughters Mrs. McKinnon and Mrs. Lomas, returned to her home in Iron Springs last Saturday

Mrs. Harold Liddle and Miss Elsie Brown left on Tuesday for Medicine Hat where they expect to stay for some time

Mr. Kenneth Yeom left on Monday for Kitchener, B.C.

Mr. and Mrs. Harry James of Grassy Lake vicinity are rejoicing over the advent of a little daughter, Mrs. James was before her marriage Miss Olive Judd of Burdett. Her friends will be pleased to know she is doing well

W. A. Moore of Medicine Hat was a business visitor on Tuesday

A gathering of great importance was held Wednesday Nov. 23rd, 1921 in the dining room of Mrs. Geo. H. Johnson's home, when Mrs. F. W. Hughes, the Provincial Organizer of the Women's Institute addressed the ladies of Burdett of whom there were eighteen present, with a view to establish an institute in that town and immediate vicinity. After some discussion it was decided to organize and the following officers were appointed, their period of office to expire December 1922:

President Mrs. Geo. H. Johnson
Vice Pres. F. H. Hendesscott
Sec.-Treas. F. M. Bishop
Directors Perry Johnson,
Mrs. Clara Garbould, Mrs. R. Ostrum
Miss Humphries.

Auditors Mrs. W. Andrews, Mrs. Ed. Waddy
Mrs. Hughes regretted very much her inability to personally visit some of the homes and wished to call the attention of each lady in the community that the Institute is open to all who are interested in "Better Homes and a Better Country". It is non-sectarian and non-partisan and it is hoped that a good number will join at the next meeting Dec. 14th, in the Council Rooms. Fees 25c a year.

"HOT OFF THE WIRES"Special to the Review,
